

U.S. Highway 12 - 2024 Road Construction

Lochsa Ranger Station to Holly Creek

Overview

The Lochsa Ranger Station to Holly Creek project is anticipated to begin on March 4 and to close by mid October. The project begins at milepost 121.4 and ends at milepost 130.3 on U.S. Highway 12. Tree removal will start as early as Monday in preparation for the future construction. The project will include shoulder widening on both sides of US-12 and construction of reinforced soil slopes.

What to expect on the project

The road may be reduced to one lane with possible maximum 30-minute delay at times. Watch carefully for flaggers or pilot cars. Additional instructions for pedestrians and bicyclists to navigate through the work zone will be shared in a separate announcement closer to the summer.
